All Prices Exclude VAT.

iPEGS Remote Monthly Subscription Terms:

12 Month Term.

Monthly form credit limits are set as a guide - users can use as many form credits per month as they like. However, if the annual form credit limit is reached before the end of month 12 then the following options apply:

1. Form Credits can be purchased in bundles at the standard Pay As You Go rate to carry the customer over to the end of the current 12 month subscription.
2. A new Annual Subscription can be started alongside the current subscription as the previous subscription form credit allocation has been used up.

When a subscription package is activated the total number of form credits will be added to the account along with the start date and expiry date plus a field showing how long left until the end of the subscription.

When form credits are getting low a warning email will be sent to the admin email address and iPEGS accounts.

If form credits fall below 0 then forms will not be able to be submitted and a notification message will inform the user to contact the account admin email address.

Any unused form credits that are part of the annual subscription will expire at the end of the 12 month term.
